The Botanical Safety Consortium (BSC) was officially convened in November 2019, as the result of an MOU between the US Food and Drug Administration (FDA), the National Institutes of Health’s National Institute of Environmental Health Sciences (NIEHS), and the non-profit Health and Environmental Sciences Institute (HESI).

**MISSION**

To enhance the botanical safety toolkit and bring clarity to botanical dietary ingredient assessments for manufacturers and regulators and evaluate the suitability of assays for botanicals as complex mixtures.

**OVERVIEW OF BSC STRATEGY**
CURRENT WORKING GROUPS

<table>
<thead>
<tr>
<th>Toxicity Endpoints</th>
<th>Exposure &amp; Toxicokinetics</th>
<th>Analysis</th>
<th>Foundational Work</th>
</tr>

BENEFITS TO JOINING THE BSC

- Engage with a global forum of scientists from government, academia, and industry
- Design and conduct studies regarding the suitability of new approach methodologies for botanical safety assessment
- Interpret and apply results from Consortium work
- Identify research topics and next phases of work for the BSC
- Share knowledge and best practices with key stakeholders

CURRENT MEMBERS

100+

Members From:

- 25 Academic Institutions
- 7 Government Agencies
- 21 Private Sector Companies
- 4 NGOs and Research Institutes
